C static code analysis

Unique rules to find Bugs, Vulnerabilities, Security Hotspots, and Code Smells in your C code

All rules 311 | Vulnerability 13 | Bug 74 | Security Hotspot 18 | Code Smell 206 | Quick Fix 14

Tags

Search by name...

"memset" should not be used to delete sensitive data
Vulnerability

POSIX functions should not be called with arguments that trigger buffer overflows
Vulnerability

XML parsers should not be vulnerable to XXE attacks
Vulnerability

Function-like macros should not be invoked without all of their arguments
Bug

The address of an automatic object should not be assigned to another object that may persist after the first object has ceased to exist
Bug

"pthread_mutex_t" should be unlocked in the reverse order they were locked
Bug

"pthread_mutex_t" should be properly initialized and destroyed
Bug

"pthread_mutex_t" should not be consecutively locked or unlocked twice
Bug

Functions with "noreturn" attribute should not return
Bug

"memcmp" should only be called with pointers to trivially copyable types with no padding
Bug

Zero should not be a possible denominator

Analyze your code

Bug | Critical | cwe symbolic-execution denial-of-service cert

If the denominator to a division or modulo operation is zero it would result in a fatal error.

Noncompliant Code Example

```
void test_divide() {
  int z = 0;
  if (unknown()) {
    // ..
    z = 3;
  } else {
    // ..
  }
  z = 1 / z; // Noncompliant, possible division by zero
}
```

Compliant Solution

```
void test_divide() {
  int z = 0;
  if (unknown()) {
    // ..
    z = 3;
  } else {
    // ..
    z = 1;
  }
  z = 1 / z;
}
```

See

- MITRE, CWE-369 - Divide by zero
- CERT, NUM02-J. - Ensure that division and remainder operations do not result in divide-by-zero errors
- CERT, INT33-C. - Ensure that division and remainder operations do not result in divide-by-zero errors

Stack allocated memory and non-owned memory should not be freed

Bug

Closed resources should not be accessed

Bug

Dynamically allocated memory should be released

Bug

Freed memory should not be used
